Recently [Greenlit](#) and coming to Mac and Linux in the foreseeable future, **Too Angry To Space** tells the meaningless story of an alien-infested space station begging to be zapped. **Too Angry To Space** encourages you to sit back, relax and get ready for some classic 2D side-scrolling action reinvented and reimagined! With its clever blend of platforming trickery and old-school pixel-perfect jump'n'fun, lock-and-load and embark on a dangerous mission to defend your base... Mission objective: kill robots, destroy enemies, kill more robots, survive and escape! Who knows, there might be a few surprises along the way? (or you get lost or trapped! HA!)
